

Revolving around computer based learning!

- ❖ Learn to identify and meet the needs of gifted students in your classroom.
- ❖ Explore new ways to differentiate instruction.
- ❖ Participate in a 45-hour seminar which features 2 days (15 hours) of face-to-face instruction and 45 hours of self-directed computer based instruction.
- ❖ A stipend will be paid at the completion of the seminar, along with a certificate
- ❖ Investigate the four modules: Getting a Perspective on Gifted, Knowing the Gifted Child, Differentiation, Curriculum and Program Models.
- ❖ Create a project to use in your classroom.
- ❖ Earn 45 CPDUS or 3 hours of Lindenwood University Credit, which is available at a cost of \$200.

Take a spin with the ALL NEW Gifted Education Seminar!

Participant Comments

"Lots of great content that got me thinking!"

"I didn't have ideas for gifted students before –I am glad to have some resources to use."

"Bertie Kingore book will be very useful and a great resource!"

"Gained a different perspective on identifying and teaching the gifted student."

"I liked the Elbow Partners in the self-directed format."

"Instructional material was excellent."

"Learned practical strategies to use in the classroom and our responsibility as teachers to differentiate."

"Never confuse motion with action."

Benjamin Franklin

Gifted Education Seminar Goal:

Teachers will be able to create an environment to identify gifted and talented learners and address their diverse needs to facilitate at least a year's growth and development in the teacher's classrooms.

The Gifted Education Seminar is aimed at teaching educators how to identify gifted and talented students in their own classroom by using authentic resources from gifted education experts including Bertie Kingore, Carolyn Coil, and Jim Delisle.

The seminar will focus around 4 modules, Perspectives, Knowing, Differentiation, and Curriculum and Program Models.

Breakdown of the modules and sub-modules:

Perspectives

- ❖ Definition of Gifted
- ❖ Facts and Misconceptions
- ❖ Landmark Studies
- ❖ Brain Research on Gifted Learners

Knowing

- ❖ Characteristics of Gifted Learners
- ❖ Social and Emotional Needs
- ❖ Special Populations
- ❖ Instruments and Procedures

Differentiation

- ❖ Targeting
- ❖ Learning Environment
- ❖ Content
- ❖ Process
- ❖ Products

Curriculum and Program Models
